SUPERVISOR'S REPORT

Supervisor Arsenault informed the Board that the Revenue and Expenditure Reports were in their packets for review. Also included in their packets were Allen Parker's resignation letter from the Long Lake Highway Department and Safety Committee meeting minutes.

At March's Board meeting the Board approved Supervisor Arsenault to negotiate the terms of the contract with Paul Smiths Aquatic Watershed Institute and the Long Lake Association. The Town requested two quotes from Paul Smiths AWI for two different levels of service with differing price points.

The Long Lake Association wanted the higher level of service and agreed to cover the cost that was beyond the \$17,000 appropriated by the Town Board in the 2022 Town Budget. The document in the Board's packets defines the agreement between the Long Lake Association and the Town of Long Lake and is signed by Barbara Taylor, Long Lake Association President and Supervisor Arsenault. Supervisor Arsenault and Barbara Taylor signed the contract with Paul Smith's AWI for summer 2022, a copy of the contract was included in the Board's packets.

Supervisor Arsenault had great news to report that DEC's campground on Tioga Point in Raquette Lake would be open for the 2022 season. National Grid crews worked 7 days straight to replace all seven lake lines instead of just the two they had originally planned to replace.

Joe Zalewski, Region 5 DEC Director said Tioga Point campground would be fully open Friday, May 27th and previous reservation holders would be given first refusal on new reservations.
